ABOUT ME

- College student looking for a software engineering internship where I can develop my programming and design skills. Strengths include attention to detail, interpersonal communication, and an eagerness to learn. I am seeking a profession in which I can do something for the field and improve my skills furthermore. Has an eagerness to learn and loves getting to know different computer languages and frameworks.

PROJECTS

- **Book-Shop - (React js ,Material UI)**

  Includes understanding fundamental concepts of React js. This consists of the Application programming interface capabilities for reaction routing, form validation, layout, and calls.

- **Facebook-Clone-Application - (MongoDB , Express js , Node.js environment)**
  The Facebook clone app back-end is included here. Users can create a Facebook account using their personal details and Users can create posts, Users can log in to their Facebook account using their email and password.

- **Car Rental System - (Bootstrap, Spring MVC , SQL)**

  The application is developed by spring web MVC. This includes the Usage of frameworks for application development, Creating user interfaces for web applications, Handling Asynchronous requests, Handling REST-based services, and Simplifying the java application development process with Spring.

- **Live-Chat Application - (Network Programming)**

  Basic understanding of Socket, Port, Protocol, TCP, UDP, IP, Skeleton, Stub, host, Input, and Output Streams and it uses a client-server architecture and is capable of communicating between two computers.

Frameworks and Library

React JS

React Native

Spring

Bootstrap

Hibernate

jQuery

Additional Skills

Team Work

Adaptability

Communication

Leadership

- **Sipsewana_Institute- (ORM , Java , Java thread , Socket Programming , Client Server architecture)**

  This is a standalone application. This was built to manage the students of Shipshewana educational institute. For example, this includes features such as managing students in the institution, course fees management, and subject & faculty management.

- **Supermarket (Java , Layered Architecture , OOP Concept)**

  This is a standalone application. This application includes many features like stock management, customer management, purchase management, easy & quick billing, and inventory management.

- **My Profile (HTML , CSS , JavaScript)**

  This is a web page where my personal information is entered .

- **Book Shop (Java, MVC Architecture, Java FX, OOP Concept, DBMS)**

  This is a standalone application. This application includes many features like stock management, customer management, purchase management, easy & quick billing, and inventory management.

EDUCATION

- **Bachelor Of Science (hons) in Computing**

  University of Bolton (UK)   (pending)

  Scheduled to be finished on 2024

- **Institute of Software Engineering (IJSE) Panadura**

  From 1st of Jan 2021 to 1st of Sep 2023

  BSc (hon.) in Computer Science

- **G.C.E Advanced Level Examination in 2020 - Technology Stream**

  B / Mahiyangana National Collage Mahiyanganaya

- **G.C.E Ordinary Level Examination in 2017**

  B / Thissapura Central Collage Mahiyanganaya

REFEREES
